

Isolating Transformers Type STOS:

Isolating transformers type STO are intended mainly for applications requiring protection against electric shock and IP44 protection grade of the casing.

Portable version is provided with a reinforced polycarbonate case and build-in soft start system.

Plugs and sockets are components intended for general applications or CEE type components at request.

The electric circuit features the following components: transformer, 2,5mb power cord with a 230V plug and two output sockets: 230V – 1x 230V Uni-Schuko / 16A oraz 1x 230V 6h 16A 2P+E IP44

General Informations:

Nominal Output Power: 1500-4000VA
 Rated voltage: 230V
 Frequency: 50 – 60Hz
 Output voltage: 230V

Max. ambient temp.: 40°C
 Protection grade: IP-44

Technical Details:

Type	Continuous output power	Rated voltage	Output voltage	Nominal Current	Dimensions [mm] A x B x height	Weight [kg]
STOS1500	1500VA	230V	230V	6,5A	380 x 330 x 170	13,5
STOS3000	3000VA	230V	230V	13A	380 x 330 x 170	17,5
STOS4000	4000VA	230V	230V	17,5 A	380 x 330 x 170	19,5
